Special acknowledgment to PAUL MILLAR

\*\*\*\*\*

The Capital City Figure Skating Club welcomes you to Horizons on Ice 1968 made possible by the combined efforts of the members, directors and friends who, through participation in both the show itself and the multitude of jobs necessary for the show's production, are responsible for its success. Special thanks are due to Don Anderson, a non-member, who has again this year devoted many hours to engineering and building props for our show.

The Club is a member of the United States Figure Skating Association which encourages and promotes figure skating. Our club sponsors and arranges for club competitions, ice skating shows, parties; schedules and provides judges for figure and dance tests for club members; conducts a beginners' class in figure skating, with professional instruction, for children in the area; and arranges for ice time for patch, free style and dance sessions for club members. Membership is open to all interested persons. We invite you to join us on the ice!
